

L'ÉPOPÉE DE LA GRANDE RÉGION

CROSS BORDER FILMS

Local production company Tarantula has released a 3 DVD box set of documentary films about the Greater Region. Tarantula's own Donato Rotunno looks at the languages of the region in his film *Blà Blà Blà*, French director Stéphane Bubel explores myths in *Eurobabel* and German film maker Rüdiger Mörsdorf links the common histories of the four different countries of the region and suggests it is a blueprint for the future of Europe. The films are all available with English subtitles.

LES M DESIGNER OBJECTS

POETIC FUNCTIONALITY

Céline Merhand and Anaïs Morel have been designing beautiful yet highly functional objects together under the Les M label for three years. Their designs include a brilliantly cosy looking "cocon" sleeping bag and chair combo, and this rather daring looking "coline" desk organiser for storing paperclips and envelopes. The designs are on sale at Mudam. www.lesm-designstudio.com

Seven local flavour

GIFT IDEAS

MOSELLE WINE

LUXEMBOURG IN A BOTTLE

The reputation of local wines has grown in stature immeasurably over the last two decades, so a bottle of a Grand Premier Cru from the Moselle will certainly go down well as a gift. We particularly like the Domaine et Tradition series from any of the seven small and dedicated vintners who select their best wines for the special label. Local crémant can also be really good, and here we can only go with the flow and suggest that Alice Hartmann's Brut is among the best, though we also have a soft spot for Bernard Massard's *Cuvée 90 ans* bubbly.
